

WOW!
Business'
Data Center
Solutions
delivers
world-class
hosting and
managed
services
capabilities.

With a dedicated, three megawatt power substation, served by redundant power grids, bunker-grade architecture, and best-in-class Cisco and Liebert infrastructure, WOW! Business' Tampa Data Center is designed to meet the most rigorous data performance and security standards.

Partnering with WOW! Business provides access to unparalleled carrier diversity. With the WOW! Business network as your foundation, you can leverage the strengths of industry-leading and local carriers, or utilize our Layer 3 private network for low latency connectivity, to create a customized, best-in-class data center solution, managed by WOW! Business.
